

CALL FOR PAPERS

International Journal of Parallel Programming

<http://www.springer.com/computer/theoretical+computer+science/journal/10766>

Special issue title: “High Performance and Parallelism in Big Data Era”

27th IEEE AINA-2013 CONFERENCE

International Conference on Advanced Information Networking and Applications,
Barcelona, Spain March 25-28, 2013

<http://voyager.ce.fit.ac.jp/conf/aina/2013/>

GUEST EDITORS

Fatos Xhafa, Technical University of Catalonia, Spain

Leonard Barolli, Fukuoka Institute of Technology, Japan

SCOPE

This special issue seeks contributions covering the topics of high performance, parallelism, emerging trends and advances in massive processing arising in data centers, cloud-based computing and applications from big data.

IMPORTANT DATES

- **Submission of papers to the journal due: 30th June 2013**
- **First round review Results: 15th September 2013**
- **Revised papers due for submission: 31st October 2013**
- **Second round review results: 30th November 2013**
- **Final version of accepted papers & sources due to the journal: 30th December 2013**

SUBMISSION GUIDELINES

The authors should prepare their manuscript following the formatting guidelines at Instructions for Authors: <http://www.springer.com/computer/theoretical+computer+science/journal/10766> All manuscripts should be submitted online at through the submission systems (select "SI:AINA-2013"). For further questions or inquiries, please contact the corresponding Guest Editor Prof Fatos Xhafa (see contact details below).
