SCOPE

The main objective of NBiS is to bring together researchers from both network systems and information systems with the aim of encouraging the exchange of ideas and experience between these two communities. The NBiS-2015 seeks original contributions in all relevant areas, including but not limited to the following topics.

1. Communication Networks and Protocols
2. Databases and Data Mining
3. Cloud, Grid and P2P Computing
4. Semantic Web and Internet Applications
5. Ubiquitous and Pervasive Computing Applications
6. Multimedia Systems and Applications
7. Mobile and Wireless Networks
8. Network Security and Privacy
9. Social Networks
10. Energy Efficient Networks and Green IT
11. Intelligent Computing and Networking
12. Parallel Computing and Multicore Systems

PAPER SUBMISSION GUIDELINE

Submit a full paper not more than eight pages (Proceedings Manuscript: two columns, single-spaced), including figures and references, using 10 font size, and number each page. The format the Proceedings Manuscript can be found at the following web page:
