SCOPE

The main objective of NBIS is to bring together researchers from both network systems and information systems with the aim of encouraging the exchange of ideas and experience between these two communities. The NBIS-2022 seeks original contributions in all relevant areas, including but not limited to the following topics.

- Network Protocols
- Databases, Data Mining and Big Data
- Grid and P2P Computing
- Semantic Web and Internet Applications
- Ubiquitous and Pervasive Computing Applications
- Multimedia Systems and Applications
- Mobile and Wireless Networks
- Network Security and Privacy
- IoT and Opportunistic Networks
- Intelligent Network Computing
- Parallel Computing and Multicore Systems
- Edge, Fog and Cloud Computing

PAPER SUBMISSION GUIDELINE

Authors should submit a paper to the main conference with a maximum of 12 pages in length, including all figures, tables, and references. Workshop papers should be maximum 10 pages long. However, authors can add up to 2 extra pages with the appropriate fee payment. Papers must be prepared using the Lecture Notes Style of Springer Proceedings. Submission instructions can be found at the conference webpage at: <http://voyager.ce.fit.ac.jp/conf/nbis/2022/>.

CONFERENCE PROCEEDINGS

All accepted papers of the conference and workshops will be published by Springer in Lecture Notes in Networks and Systems (LNNS). Proceedings will be sent by Springer for indexing in SCOPUS.

SPECIAL ISSUES

Presented papers at NBIS-2022 will be considered for publication in some Special Issues in International Journals.
